To all members of the Delaney Group Family,

It is with great honor that I get to take a few minutes and congratulate all of you for your hard work and dedication to DGI's FAMILY FIRST philosophy. Because of your commitment to safety, the Delaney Group family achieved a significant milestone. As a group we have reached over 1 million hours worked without sustaining a lost time injury. This is a major accomplishment for any company and an even bigger one for a construction company of our size. It is our firm belief that surrounding ourselves with safe and capable workers that the Delaney Group will continue to grow into a World Class Organization.

Please take a moment and thank your coworkers, supervisors, safety coordinators, project managers, and administrators for their hard work during this incredible run. Give thanks to your families for their support of your safety efforts. And finally take a moment to reflect on how you contributed to the milestone and be proud. We are well on our way to the next milestone, let us all continue our efforts and strive for 2 Million!

Above you will see the image of the National Safety Council Award we received.
